PROFILE

Analytical and results-driven Data Science & Engineering professional pursuing an M.Sc. in Applied Data Science and Analytics at SRH Hochschule Heidelberg. Hands-on experience in AI automation, data pipelines, machine learning, and business analytics — bridging the gap between data infrastructure and actionable insights. Skilled in transforming raw data into production-ready systems and scalable dashboards deployed across GCP, AWS, and Streamlit.

EXPERIENCE

Thesis Student

03/2026 – 09/2026

Omnisent Sports

Heidelberg

- Developed a data-driven sports investment intelligence framework for Omnisent AI, integrating athlete performance data, social capital indicators, and commercial valuation to reduce fragmentation across scouting, sponsorship, and investment decision-making.
- Designed an exploratory Social Performance Index (SPI) to quantify athlete social and commercial value alongside on-field metrics, enabling more complete athlete valuation across sports, leagues, and competition tiers.
- Proposed an AI-assisted analytics pipeline covering data ingestion, athlete scoring, normalization, and matching support, using concepts from agentic AI, retrieval-augmented workflows, and automated sports analytics.
- Explored algorithmic matching frameworks using multi-criteria decision analysis and stable matching theory to support club-player, brand-athlete, and investor-club recommendations with explainable decision outputs.

Data Science Intern

11/2025 – 03/2026

Omnisent Sports

Germany (Remote)

- Built AI-powered sentiment analysis pipelines using pretrained NLP models (HuggingFace, RoBERTa).
- Developed end-to-end data pipelines using Python, SQL, and PostgreSQL.
- Designed analytics-ready datasets and contributed to Streamlit dashboards.
- Collaborated with product and engineering teams to improve data quality and business alignment.

Database Administrator Intern

12/2023 – 06/2024

CRISIL Limited

Mumbai, India

- Automated KPI and compliance reports using Python and SQL, improving efficiency by 40%.
- Optimized ETL pipelines and SQL queries, improving performance by 30%.
- Built Power BI dashboards and validation scripts for enterprise reporting.
- Supported database migration projects with zero downtime and strong QA alignment.

EDUCATION

M.Sc. Applied Data Science and Analytics (enrolled)

2024 – 2026

SRH Hochschule Heidelberg

Germany

Blended Intensive Program, Computer Science

05/2025 – 06/2025

FH St. Pölten - University of Applied Sciences

Austria

B.Tech in Information Technology

2020 – 2024

Symbiosis Institute of Technology

Pune, India

SKILLS

Programming & ML	Python (NumPy, Pandas, Scikit-learn, PyTorch, PyTorch Geometric, TensorFlow), SQL, JavaScript, TypeScript
Cloud & DevOps	GCP, AWS (S3, Lambda), Git, CI/CD
AI Automation	LangChain, Streamlit, REST APIs, Agentic AI Frameworks
Concepts	Data Modeling, Data Warehousing, MLOps, Explainable AI, Model Deployment, A/B Testing
Data Engineering	Apache Airflow, BigQuery, PostgreSQL, MySQL, MongoDB, Docker, APIs, ETL Pipelines
Analytics & Visualization	Power BI, Tableau, SAP Analytics Cloud, Excel (Power Query, PivotTables)
QA & Testing	Playwright, Cypress, Jest, Technical Documentation, Agile Practices

LANGUAGES

English	C1
German	A2

PROJECTS

Graph-based Knowledge Representation <i>Knowledge Graph + RAG Integration</i> Built GNN prototypes (PyTorch Geometric) and integrated RDF/Neo4j into RAG pipelines.	02/2024 – Ongoing
AI-Agentic Framework for Algae Management <i>Multi-Agent AI System</i> - Developed multi-agent AI architecture integrating satellite, climate, and water data for HAB prediction. - Implemented Transformer-based fusion and LangChain-powered reasoning agents.	03/2025 – 08/2025
Pacific Progress Pulse <i>Tableau Climate Dashboard</i> Developed interactive Tableau dashboard for climate and sustainability KPIs.	06/2025 – 07/2025
TruHealth - Mental Health Analysis Website <i>NLP Model + Dashboard</i> Built predictive NLP model (85% accuracy) and deployed Flask backend with MongoDB and Power BI.	09/2023 – 11/2023

CERTIFICATIONS

Building LLM Applications With Prompt Engineering — NVIDIA	Nov 2025
Fundamentals of Deep Learning — NVIDIA	Oct 2025
Python for Data Science, AI & Development — IBM / Coursera	Jan 2025
Introduction to Data Engineering — IBM / Coursera	Jan 2025
SAS Certified Specialist: Visual Business Analytics Using SAS Viya — SAS	Nov 2024
SAS Visual Analytics 2 for SAS Viya: Advanced — SAS	Nov 2024
SAS Visual Analytics 1 for SAS Viya: Basics — SAS	Nov 2024
Intermediate Python for Developers — DataCamp	Oct 2024
Data Science Methodology — IBM / Coursera	Aug 2024
Tools for Data Science — IBM / Coursera	Aug 2024
What is Data Science? — IBM / Coursera	Jul 2024
Foundations: Data, Data, Everywhere — Google / Coursera	May 2024
Google Data Analytics Capstone: Complete a Case Study — Google / Coursera	May 2024
Programming for Everybody (Getting Started with Python) — Univ. of Michigan / Coursera	Mar 2024
